# MIA WORLD SYMPOSIUM

18 - 20 OCTOBER 2019

THE GRAND TARABYA HOTEL ISTANBUL

## LET'S MEET WHERE THE CONTINENTS MEET

### 18 OCTOBER 2019

**NEW ERA IN IMPLANTOLOGY  
ADVANCED HANDS-ON COURSES**

**OPENING COCTAIL DINNER ON  
WONDERFUL BOSPHORUS TOUR**

### 19 OCTOBER 2019

**MIA WORLD SYMPOSIUM  
SCIENTIFIC PROGRAM**

**LUNCH & OPENING COCTAIL WITH  
GREAT BOSPHORUS VIEW**

**AMAZING EXTREME  
ACTIVITIES**

**MAGNIFICENT  
CONCERT NIGHT**

**PROF. DR.  
HASAN MERİÇ**  
MIA BAŞKANI

Dear Colleagues,

We are delighted to invite you to attend the MIA World Symposium from 18-20 October 2019 in Istanbul.

The scientific program will consist of hands-on courses enriched with current topics in dental implant applications under the roof of "New Era in Implantology" organized by MIA Academy, in addition to the conferences with lectures from the top international experts in the field.

Our symposium is an important platform to bring together leading academic scientists, dentists, surgeons and prosthetic specialists to exchange and share their experience and the latest developments in professional and scientific aspects.

In addition to the scientific program many entertaining activities in the magnificent Bosphorus of Istanbul, which brings the continents together are waiting you. The participation is limited, so be hurry to register. We look forward to welcoming you to the MIA World Symposium!

Sincerely Yours,

SPEAKERS**

**PROF. DR.  
HASAN MERİÇ**  
MIA BAŞKANI

In 1973 he was graduated from Istanbul University Faculty of Dentistry and transferred to Department of Periodontology. After working a while with Prof.Dr.D.Lange, in 1988 was assigned to professors' team in University of Münster, in Germany. Between 2005 and 2008, he served as the Dean of the Faculty of Dentistry at Istanbul University. He has been the Vice Rector of Istanbul Aydın University Faculty of Dentistry since 2013 and since 2017 he is the president of the Periodontology Department of the university and since 2016 he is the president of MIA Mode Implant Academy.

**DR. FRANK  
ZASTROW**

Dr.Frank Zastrow finished the dental school in University of Heidelberg, Germany, he became research associate at the oral surgery and maxillofacial surgery center of the University of Heidelberg (medical director: Prof. Dr. J. Mühling). 2008 he got licensed for dentistry and oral surgery, doctorate from University of Heidelberg.He was Senior Physician at Prof. Fouad Khoury in the clinic Schloss Schellenstein, Germany and since 2012 he is owner of the private clinic Dr. Zastrow & colleagues in Wiesloch, Germany. From 2011 he was Senior Physician at the private clinic Schloss Schellenstein. 2011 he licensed to Master M.Sc. Implantology and Dental Surgery in the University of Münster, Germany.

**DR. KLEANTHIS  
MANOLAKIS**

Dr. Kleantis Manolakis was born in Thessaloniki, Greece. He graduated from the School of Dentistry, Albert-Ludwigs-University of Freiburg, Germany in 1989. He also completed his thesis at the same university and was awarded the Ph.D. degree in 1991.He was trained in fixed prosthodontics and dental implantology at the School of Dentistry, Department of Prosthodontics and Department of Oral Surgery, University of Zurich, Switzerland (1993-1995).Founding member and since 2012 Treasurer of the Hellenic Academy of Aesthetic Dentistry, Country Chairman Greece for the European Society of Cosmetic Dentistry. Course director and instructor for international training courses.

**DR. DIRK  
DUDDECK**

Certification as dentist in 1992 and junior doctor time in the Clinic and Department of Oral and Maxilla-Facial Surgery at the University of Heidelberg. From 1999 until 2006 founder and managing director of a leading consulting company in the dental industry, practice coach and speaker focusing on communication and implantology. Since 2007 implantologist & researcher at the Interdisciplinary Department of Oral Surgery and Implantology and the Department of Oral and Maxilla-Facial Plastic Surgery, University of Cologne, Germany. Project manager of the Quality & Research Committee at the European Association of Dental Implantologists BDIZ EDI. 2014 Co-Founder & program director of the European Academy of Dental Implantology EADI, managing the "Certified European Diploma in Implantology" in different European locations. 2014 Founder of the Medical Materials Research Institute, Berlin, specialized in implant material analyses. In 2015 Dr.Dudgeck realized one of the largest research projects regarding the quality of dental implants: SEM imaging and elemental analyses of more than 120 implants.

**DR. FISNIK  
KASAPI**

Dr. Fisnik Kasapi was born in Skopje. He graduated in Dentistry in University of St. Cyril and Methodius, Skopje Macedonia 1996. He started his doctorate education in the field of oral surgery in University of St. Cyril and Methodius 2001. He graduated and earned her doctorate degree in 2004. He is a member of professional associations. She has been a member of the Albanian Dentistry Association since 1997, the Albanian Oral and Maxillofacial Surgery Association since 2004, the Albanian Oral and Maxillofacial Surgery Association in Macedonia since 2007 and the Macedonian Association of Oral and Maxillofacial Surgeons since 2010, European Committee of European Association of Dental Implantologist BDIZ 2014. 2016 and 2017 he was a president of the First Congress for Oral Surgery and Implantology Symposium of AIAM, "Edi of Macedonia"-European Association of Dental Implantologist of Macedonia in BDIZ EDI.

**DR. UĞUR  
MERİÇ**

Dr. Meric received his DDS at the University of Istanbul, Turkey in 1998. 2016 PhD from the same university. Dr. Meric worked as an assistant professor and a lecturer in the University of Istanbul, Faculty of Dentistry Department of Oral Surgery until 2012. Dr. Meric worked in Germany (2009) as a guest research-assistant at the University of Munster, School of Dentistry Department of Oral Surgery and Private Clinic Schellenstein Olsberg (Chairman: Prof. Dr. F. Khoury). Dr. Meric is a member of Turkish Oral and Maxillofacial Surgeons Association (TAOMS), Turkish Implantology Association (TOID), International Team of Implantology (ITI). He is the coordinator and head of scientific comity in Turkey for the master programme for oral surgery and implantology with Inetrnational Medical College (IMC), Muenster Germany.

**DR. MUSTAFA  
RAMAZANOĞLU**

Mustafa Ramazanoğlu graduated from Marmara University Faculty of Dentistry in 2001 and enrolled in postgraduate program at the Department of Oral and Maxillofacial Surgery, Istanbul University Faculty of Dentistry where he earned his Ph.D. degree in 2008. He was visiting scholar at Charite Campus Virchow Hospital, Clinic and Policlinic for Oral & Maxillofacial Surgery and Plastic Surgery, Clinical Navigation and Robotics, and Department of Oral & Maxillofacial Surgery, University of Erlangen in 2004 and 2008, respectively. He became associate professor of the Department of Oral & Maxillofacial Surgery, Istanbul University in 2013. He received award for the best poster presentation at the annual meeting of Association of Oral and Maxillofacial Surgery Society in Antalya (2012), poster presentation travel award at the annual meeting European Association of Osseointegration in Copenhagen (2012) and price for the best poster at International Conference on Oral & Dental Health in Las Vegas (2013).

**DR. AHMET  
KİĞILI**

Dr. Ahmet Kiğılı was graduated from Gazi University Faculty of Dentistry in 1992. He was the president of TDB (Turkish Dental Association) Malatya Dentists Association in between 1995 and 2000. He is the founder and member of the board TEAD Turkey Disabilities Association of Oral and Dental Health since 2002. Dr.Kiğılı has been lecturing in courses and congress about implant superstructure systems, Stable prosthesis for immediate and late restoration, Soft tissue management, Immediat load implantology and intra oral welding, Nitrous oxide sedation in dentistry. He has been chairman of the board of the Istanbul Dentistry Institute since 2014. He is the co-coordinator of international master program IMC (International Medical College) in Turkey. Kiğılı was graduated from Gazi University Faculty of Dentistry in 1992. He was the president of TDB (Turkish Dental Association) Malatya Dentists Association in between 1995 and 2000. He is the founder and member of the board TEAD Turkey Disabilities Association of Oral and Dental Health since 2002. Dr.Kiğılı has been lecturing in courses and congress about implant superstructure systems, Stable prosthesis for immediate and late restoration, Soft tissue management, Immediat load implantology and intra oral welding, Nitrous oxide sedation in dentistry. He has been chairman of the board of the Istanbul Dentistry Institute since 2014. He is the co-coordinator of international master program IMC (International Medical College) in Turkey.

**DR. UĞUR  
MERCAN**

He Dr.Uğur Mercan was graduated from Hacettepe University Faculty of Dentistry in 2007 and in the same year started to work at Ondokuz Mayıs University, Faculty of Dentistry, Department of Oral and Maxillofacial Surgery. He completed his fellowship program at Ohio Case Western Reserve University, School of Dental Medicine, Department of Oral and Maxillofacial Surgery in 2012 and at the same year he completed his PhD thesis titled "Evaluation of the Effect of Processed Dentin on Bone Formation". In 2016, he was accepted the "Fellowship of AO Foundation, Cranio-Maxillofacial Surgery" and completed the program at " Hannover University, Medical School, Department of Craniomaxillofacial Surgery. He interests about dental implantology, soft and hard tissue reconstruction, bone grafting procedures, maxillofacial trauma, temporomandibular joint diseases and surgical treatments and has many international and national articles about oral and maxillofacial surgery. Dr. Mercan has worked in Okan University, Faculty of Dentistry, Department of Oral and Maxillofacial Surgery as an Assistant Professor position since 2014.

## Graftless Implantology and Autogenous Bone

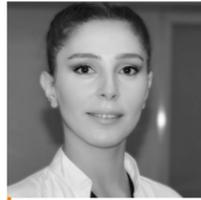

► 18 OCTOBER 2019  
GRAND TARABYA HOTEL ISTANBUL

DR. FRANK ZASTROW  
MAXILLOFACIAL SURGERY DDS, PhD

DR. UĞUR MERİÇ  
MAXILLOFACIAL SURGERY DDS, PhD

DR. ÜLKEM CURAL  
MAXILLOFACIAL SURGERY DDS, PhD

DR. EDA KAYA AKCA  
MAXILLOFACIAL SURGERY DDS, PhD

- 12.00 - 13.30 Scientific Program Group A + Group B Limited Participation: 100
- 14.00 - 16.00 Hands - On Course Group A
- 16.30 - 18.30 Hands - On Course Group B

### Scientific Program ► 12.00 - 13.30

- Procedures of collecting autogenous bone and use in implant treatment
- Autogeneous bone physiology and soft tissue regeneration philosophy
- Grafted and graftless sinus lifting methods with long-term success
- Lateral and vertical bone block building methods

Scientific Program Turkish-English Simultaneous Translation

### Hands-On Course ► 14.00 - 16.00 Group A ► 16.30 - 18.30 Group B

- On plastic phantom jaws;
- Autogenous bone collecting methods and implant placement
  - Block bone harvesting protocols
- Soft tissue management methods on the sheep heads,
- Kazanjian vestibuloplasty, roll-flap, apical reposition flap, palatine pedicled flap application
  - Suture techniques

▶ BONE AUGMENTATION PROCEDURES WITH AUTOGENOUS BONE WITHOUT ANY NEED TO SYNTHETIC MATERIALS IN CASES OF BONE TISSUE INSUFFICIENCIES WILL BE DISCUSSED.

✓ With this course, where theoretical knowledge will be reinforced with practice; dentists will be able to gain the skills for successfully rehabilitate all indications without using synthetic materials.

## In every aspect QUATTROFIX

► 18 OCTOBER 2019  
GRAND TARABYA HOTEL ISTANBUL

DOÇ. DR. MUSTAFA RAMAZANOĞLU  
MAXILLOFACIAL SURGERY DDS, PhD

PROF. DR. ONUR GEÇKİLİ  
PROSTHETIC DENTISTRY

DR. KEREM TURGUT ATASOY  
MAXILLOFACIAL SURGERY DDS, PhD

MSC. DT. GÖKHAN TUNALIGİL

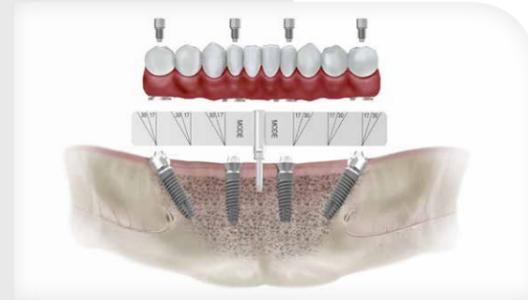

- 12.00 - 13.30 Scientific Program Group A + Group B Limited Participation: 100
- 14.00 - 16.00 Hands - On Course Group A
- 16.30 - 18.30 Hands - On Course Group B

### Scientific Program ► 12.00 - 13.30

- The philosophy of QUATTROFIX rehabilitation and patient selection
- Surgical approaches in angulated implant placement and correct positioning
- Selection of the correct implant and ideal abutment
- Immediate loading protocols in full arch implant cases
- From surgery to prosthesis: four implant supported fixed rehabilitations

Scientific Program Turkish-English Simultaneous Translation

### Hands-On Course ► 14.00 - 16.00 Group A ► 16.30 - 18.30 Group B

- On plastic phantom jaws;
- Introduction of surgical and prosthetic components
  - Quattro-fix surgery on model
  - Adaptation of prosthetic components on implants
  - Impression techniques and immediate loading of the temporary prosthesis.

▶ YOUR PATIENTS MAY NOT BE TOLERANT TO WAIT FOR OSSEOINTEGRATION

✓ Quattrofix surgery offers a fast and fixed approach for the restorations of total edentulous jaws by the use of immediate loaded two tilted and two axial implants.

Coffee Breaks and MIA Participation Certificate

### Sinus Lifting and Bone Augmentation Techniques with Piezo Surgery

**DR. UĞUR MERCAN**  
MAXILLOFACIAL  
SURGERY DDS, PhD

**DR. SABRİ ŞENCAN**  
MAXILLOFACIAL  
SURGERY DDS, PhD

► **18 OCTOBER 2019**  
GRAND TARABYA HOTEL ISTANBUL

- 12.00 - 15.00 Scientific Program and Hands-On Course **Group A** Limited Participation: 24
- 15.30 - 18.30 Scientific Program and Hands-On Course **Group B** Limited Participation: 24

### Scientific Program

- Working principle and instruments of piezo surgery,
- Clinical applications of piezo surgery in dentistry,
- Bone expansion (Alveolar split osteotomy) and autogenous bone graft harvesting techniques with piezo surgery,
- Management of the challenges with piezo surgery,
- Advantages of piezo surgery in clinical practice

### Hands-On Course

- Raising the eggshell for manipulation of nerve endings with piezo instruments
- Sinus lifting application on sheep heads
- Bone expansion operation on sheep mandibular bone (alveolar split osteotomy)
- Implant placement after bone expansion operation

► **ACHIEVE NEW STEP WITH PIEZO SURGERY IN TRADITIONAL IMPLANT DENTISTRY.**

✓ Successful implant placement by preventing membrane ruptures during sinus lifting operation with piezo surgery. Implant placement after bone expansion (alveolar split osteotomy).

Coffee Breaks and MIA Participation Certificate

MUSTAFA ZEREN**

► **18 OCTOBER 2019**  
GRAND TARABYA HOTEL ISTANBUL

- 12.00 - 15.00 Scientific Program and Hands-On Course **Group A** Limited Participation: 24
- 15.30 - 18.30 Scientific Program and Hands-On Course **Group B** Limited Participation: 24

### Scientific Program

- Road map of digitalization in implant supported prostheses?
- Journey from analog impression to impression using an oral scanner?
- Ti-base abutment and implant-based abutment selection
- Clinical and laboratory workflow in digital impression

### Hands-On Course

- Introduction of digital prosthetic products
- Operating principles of intraoral scanners
- Digital impression methods
- For implant supported prosthesis digital impression on phantom model
- Transfer of digital impression to design laboratory
- Dentist-laboratory collaboration in prosthesis planning

► **INTRODUCTION TO THE WORLD OF DIGITAL DENTISTRY**

✓ User software features of intraoral scanners, digital impression techniques in implant supported restorations, the right product selection according to the case and the most effective workflow from dentist to technician.

Prosthetic Planning  
and Workflow in  
Hybrid Prosthesis  
Restorations

18 OCTOBER 2019  
GRAND TARABYA HOTEL ISTANBUL

DR. AHMET KIĞILI

DR. DEFNE  
BURDUROĞLU

MDT. FARIBA  
KHAYYATI

- ▶ 12.00 - 15.00 Scientific Program and Hands-On Course Group A Limited Participation: 24
- ▶ 15.30 - 18.30 Scientific Program and Hands-On Course Group B Limited Participation: 24

### Scientific Program

- Hybrid prostheses and planning in implant supported prosthesis
- The importance of occlusion for long-term success; implant protected occlusion
- Conventional and digital impression methods
- System requirements for impression in hybrid prosthesis and selection of ideal abutments.

### Hands-On Course

- Practice on plastic phantom jaws
- Preparation of supportive structure for splinting impression copings
  - Splinting impression copings with pattern resin
  - Adaptation of metal hybrid framework and passive fit

#### ▶ IMPLANT SUPPORTED HYBRID PROSTHESIS;

✓ In this course, hints for long-term success and accuracy of impression techniques will be explained in implant supported hybrid prosthesis.

- ▶ 12.00 - 15.00 Scientific Program and Hands-On Course Group A Limited Participation: 24
- ▶ 15.30 - 18.30 Scientific Program and Hands-On Course Group B Limited Participation: 24

### Scientific Program

- Basic principles in sinus lift surgery
- Augmentation Methods.
- PRP indications and patient selection.
- PRP preparation techniques and PRP applications in sinus lift surgery.

### Hands-On Course

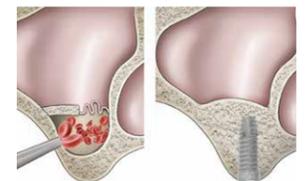

- Basic sinus lifting on plastic jaws, window preparation and membrane elevation
- Installation and Use of Centrifugal Device; Preparation of PRP System.
- Preparation of PRP by centrifuging the blood samples obtained from participants
- Application of PRP as an augmentation method in plastic jaws.

#### ▶ THERAPEUTICAL POWER OF OUR BLOOD

✓ Improving regeneration rate with the therapeutical power of blood, together with biomaterials.

DR. A. SELHAN KAYA  
MAXILLOFACIAL  
SURGERY DDS, PhD

18 OCTOBER 2019  
GRAND TARABYA HOTEL ISTANBUL

- ▶ 12.00 - 15.00 Scientific Program and Hands-On Course **Group A** Limited Participation: 24
- ▶ 15.30 - 18.30 Scientific Program and Hands-On Course **Group B** Limited Participation: 24

### Scientific Program

- Three-dimensional diagnostic treatment protocols in planning
- Digital workflow according to indications
- Restorative assisted implant positioning and digital waxing
- CAD Design, CAM Manufacturing, 3D Guide Production and Intraoral Scanner plan to final digital restorations

### Hands-On Course

- Basic features of scanner user interface surgical software, scanning principles, data collection and CBCT
- Surgical Guide planning, 3D design and manufacturing of surgical guide (template)
- Implant applications in phantom jaws with surgical guide

#### DIGITAL INTEGRATION IN IMPLANTOLOGY

With This Hands-on Course you can achieve;  
Implant planning with prosthetic design, digital predictable workflow in surgery and prosthetics simultaneously and restoration quality without complications

GRAND TARABYA HOTEL ISTANBUL

- ▶ 12.00 - 15.00 Scientific Program and Hands-On Course **Group A** Limited Participation: 24
- ▶ 15.30 - 18.30 Scientific Program and Hands-On Course **Group B** Limited Participation: 24

### Scientific Program

- Cases of excessive bone resorption,
- Traditional augmentation techniques, processes and possible contraindications,
- Philosophy and success history of PROVO Bendable Implants,
- Periimplantitis in mono (One-Piece) and traditional implants,
- Indications and application techniques of bendable implants.

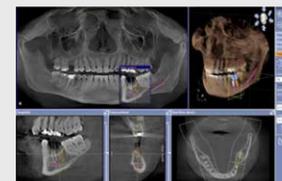

### Hands-On Course

- On Phantom Jaws;
- Introduction to Bendable Implants parts,
- Cement-retained PROVO-C implant surgery, prosthesis angulations and restorations
- Occlusal screw-retained PROVO-S implant surgery, angulation techniques and immediate loading applications

#### IMPLANT AND RESTORATION IN 72 HOURS;

With the aid of bendable implants models; You can achieve a customer-oriented and fast therapy that meets patient demands in an ideal way with the aid of immediate loading of bendable implant models by exceeding traditional augmentation applications

Coffee Breaks and MIA Participation Certificate
